15C. DATE SIGNED				16B. UNITED STATES OF AMERICA		16C. DATE SIGNED		
(Signature of person authorized to sign)				(Signature of Contracting Officer)				

The purpose of this amendment is to provide additional information to potential offerors.

The following information is provided as a result of the site visit conducted on March 24, 2005:

1. Based on the revised specifications dated 20050318, provided in Amendment 0008, it was clarified that the positioner data was omitted in the revised specifications since they do not affect the plotter.
2. The braking distance is not immediately at the end of the motion because the run is completed at that point. Worst case was 6-8 inches past the working area. The motion could be side-to-side or circular.
3. The horn position can be effected by flexure from motion and inertia to some small degree.
4. The accuracy of the pointing of the horn, especially at high rates of speed could not be held tightly.
5. The contractor shall remove and dispose of the old system.
